

**END RESULT:
Efficient
Processes**

Be sure not to automate an inefficient process. Redesign processes before using technology.

2. Review Steps in Process Redesign: How do you do it?

4. Review Filters for Decision-Making.

Be sure to stop or jettison work that no longer makes sense to make room for strategic work.

3. Review Most Critical HR Process Redesigns.

Determine where to begin. Which redesigns should we prioritize based on our context?

What are the processes that take time but add little value to principals and schools?

1. Review the Process Redesign Summary.

**START
HERE**

Process Redesign...

...provides a structure that HR departments can use to improve and upgrade their processes for maximum efficiency and effectiveness and provides both steps for redesign as well as ideas about the most critical processes to tackle first.
